Inherent Likelihood	Likely (4)
Inherent Consequence	Major (4)
Inherent Risk Rating	High
Residual Likelihood	Possible (3)
Residual Consequence	Moderate (3)
Residual Risk Rating	Medium
Mitigations	Implement MFA, phishing simulations, secure email gateway
Risk Owner	CISO

RN-002 - Ransomware Attack on Corporate Systems

Date Identified	11 June 2026
Review Date	11 December 2026
Risk Description	Ransomware may disrupt retail operations and e-commerce services.
Assets at Risk	E-commerce platform, POS systems, SAP, AWS services
Threat	Ransomware operators
Vulnerability	Phishing exposure and third-party integrations
Existing Controls	Endpoint protection, antivirus, firewalls
Inherent Likelihood	Likely (4)
Inherent Consequence	Extreme (5)
Inherent Risk Rating	Extreme
Residual Likelihood	Possible (3)
Residual Consequence	Major (4)
Residual Risk Rating	High
Mitigations	Deploy EDR, immutable backups, segmentation, IR testing
Risk Owner	IT Security Manager

RN-003 - Third-Party Vendor Data Breach

Date Identified	11 June 2026
Review Date	11 December 2026
Risk Description	Vendor compromise may expose customer information.
Assets at Risk	Customer PII, loyalty records, marketing databases
Threat	Third-party compromise
Vulnerability	Limited visibility into vendor security posture
Existing Controls	Vendor agreements, tokenized payment data
Inherent Likelihood	Possible (3)
Inherent Consequence	Major (4)
Inherent Risk Rating	High
Residual Likelihood	Unlikely (2)
Residual Consequence	Moderate (3)
Residual Risk Rating	Medium
Mitigations	Vendor audits, security assessments, contractual controls
Risk Owner	Vendor Risk Manager
